

Dear Brea Fitness Member:

The City of Brea values the safety and wellness of the entire community. Since the County of Orange declared a local health emergency on February 26, 2020, City officials have been closely monitoring the COVID-19 (coronavirus) outbreak. To date, there are no presumptive nor confirmed cases of COVID-19 in Brea. At the Brea Community Center, we have been taking substantial precautions and implemented significantly elevated cleaning practices to maintain a healthy environment for all visitors, members, instructors and staff. As an organization and community, we value everyone's safety and wellness, and are closely monitoring developments.

Due to rapidly changing conditions and various mandates, we will be temporarily closing our Fitness Center, drop-in basketball, drop-in volleyball and Kid Watch services to ensure the safety of all our members, instructors and team. It is anticipated at this point that we will reopen on May 11<sup>th</sup>.

This is an uncertain time. While we do not have all of the answers, we are doing our best to balance providing the service you expect with the safety of our visitors, members, instructors and staff.

If you are on a payment plan, your payment dues will automatically be suspended immediately. If you have prepaid your membership, we will extend your renewal date out to reflect the total time period that we are closed once we have reopened. Feel free to call us at (714) 990-7101 with any questions you may have.

The City's website [www.cityofbrea.net](http://www.cityofbrea.net) has all of the latest information on how COVID-19 is being handled for City programs and services, along with other information to help you stay up-to-date.

We thank you for your support, patience and trust as we navigate these challenging circumstances. Know that we are thinking of you and hoping you stay healthy and strong. We look forward to seeing you back at the Fitness Center soon.
